BRAND LOGO | THINGS TO AVOID

Don't change the opacity of the brandmark.

Don't change the proportions of the brandmark and don't apply any distortion such as perspective, warp or other.

Don't apply creative effects such as drop shadow, inner glow...

Don't remove the background.

Don't change colors.

Don't enlarge or reduce the background.

> For all your creative development, please consult BS BATTERY Team before any production.
