

NEW BGZ SERIES – MAXIMAL PERFORMANCE FOR BIG ENGINES

Unveiled at EICMA, BS BATTERY has expanded its SLA MAX range with 5 new models called “BGZ Series” to meet the robust performance needs and enduring reliability expected from high-powered touring motorcycles.

These latest AGM generation batteries have been crafted with built-in copper nuts terminal to enhance the conductivity up to 50% than standard terminal and improved max torque strength up to 13N.m. With robust taller plates designed to improve starting power, these 12V batteries offer a maximal performance to big-engine vehicles with high requirements and equipped with lot of electronic equipment's.

FEATURES

	Factory activated AGM (Absorbent Glass mat) technology		Maximum starting power & extended cycle life Up to 20% higher than SLA range
	Ready to use Just plug & play		Superior capacity Up to 20% higher than SLA range
	No maintenance VRLA (Valve Regulated Lead Acid) design		Extreme vibration resistance Reinforced battery case

Ready to use, 100% maintenance free and non-spillable, BS BATTERY has unveiled the most powerful models in its Sealed Lead Acid lineup. With a starting power, cycle life and capacity up to 20% higher than the SLA (Sealed Lead Acid) range, the new BGZ series is a premium battery choice for select V-Twin, Metric, ATV and UTV applications!
